

# The Week In Ottawa

By F. E.

Ottawa. — For a brief period in the House of Commons last week Mr. George Spotton, the Conservative member for Huron North and Mr. Frank Boyes (Cons., Middlesex East) extended their felicitations to the government for the enactment of the Farmers' Creditors Arrangement Act. That piece of legislation is considered one of the finest passed by the present government. Farmers are looking upon it as a boon to their industry; adjusters with creditors already have reached the government from Ontario tillers of the soil for detailed information regarding the measure.

This is what has happened to many a farmer. He is bowed down with a first mortgage of \$5,000 with \$800 accumulated interest, and is paying six and a half per cent. He has a second mortgage of \$1,000 with \$400 accumulated interest and is paying six per cent. on it. Each year he has to pay \$461 interest.

This farmer can go to the government, or, in other words, do business under the Farmers' Creditors Arrangement Act. This would happen: his \$5,000 mortgage would be reduced to \$5,000 and he gets that for five years at two per cent. The \$1,400 mortgage would be cut to \$1,200 and he gets that for ten years at two per cent., so that instead of having an interest burden of \$471, which no farmer could bear, he goes home happy making a new start in life with an interest charge of \$174.

The Rhodes budget was finally ratified by a vote of 98 to 74 last week, in face of two Opposition amendments which were beaten back by substantial votes in the divisions. One of the amendments was put forth by the Liberals, calling for an immediate election. Five U.C.A. and one Progressive member lined up with the government to show this motion under by 104 to 73.

Col. Arthur, member for Parry Sound, told the Liberals they were all wrong when they said tariffs would raise the price to the consumer. They hadn't. Victor Porteous, of Grey, among other things, said a lot of the unemployed were living under better conditions than the people supporting them, while J. F. White, of London, went elaborately into the implementation question to show that prices are lower than in 1930.

Acting Premier Sir George Reiley announced that Mr. Bennett had been able to leave his bed on Thursday for a short time and walk around his room. It is not anticipated that the Prime Minister will be back in the House before the Easter recess which is scheduled to begin about April 18. He probably will not appear before he returns from England where he will attend the King's silver jubilee anniversary celebration.

There is enough proposed legislation yet untouched to keep the House busy many weeks yet and there seems little or no doubt that the election will come before the Fall.

Appointment of Mr. Lou Golden, Toronto barrister, as general secretary of the Conservative Dominion Organization, was made on Tuesday last by J. Earl Lawson, K.C., M.P., Dominion organizer.

One member had the name of the

Ontario premier on his lips last week, but that was as far as he went. Just what he was about to say no one but himself knows.

Ottawa. — Despite a two-day Opposition filibuster led by Hon. Ernest Lapointe the House of Commons managed to get through a fair amount of work last week. Civil servants rejoiced when their salaries were readjusted upward and the Hon. Robert Weir's plan for permanent rehabilitation of drought-stricken western prairie areas went to its third reading.

There seemed to be no good reason why two days should have been wasted in a futile debate on the question of the length of the Easter recess. Much important legislation is yet to be discussed in connection with the reform program. Liberal Leaders are asking for an early election. The C.C.F. Labor and Progressive groups apparently do not want one until the business of the session is concluded judging by the 90 to 49 count that finally voted down the Lapointe motion for a 7 day recess, seven U.P.A.-Labor members were counted in the government lobby.

The bill establishing the Farmers' Creditors Arrangement Act has been returned to the Commons by the Senate for concurrence in a few amendments. Perhaps the most interesting amendment as far as the farmer is concerned is one which clarifies the situation with respect to whether or not the Act applies to debts incurred after May 1st of this year. It does, but only when the creditor concurs.

Third reading has been given the Farm Loan Bill by the Senate but this measure also has been sent back to the Commons for concurrence in amendments approved by the banking and commerce committee. Royal assent will be given the bill probably early this week. The bill increases credit facilities to the farmer to \$20,000,000 and abolishes provincial farm loan boards, thereby leaving administration entirely with the Dominion Board.

Hon. H. H. Stevens, former Minister of Trade and Commerce, backed by members of the Conservative party, displayed a fighting spirit in the House of Commons on Friday that has rarely been seen in the lower chamber. With the plaudits of the Conservatives ringing in his ears, the former minister clashed with Hon. C. H. Cahan, Secretary of State, and took responsibility for premature publication in the press of a summary of the report of the Royal Commission on price spreads.

Mr. Stevens took his fighting stand on the broad question of unscrupulous business and combines. In addition to assuming the blame for the appearance in the press of the report of the commission, he also told the Commons that while he was sorry that the incident had occurred, he would take no back water from any man in Canada. He told the Commons why he resigned his cabinet post and in no uncertain terms, that he had acted for the good of his country throughout the entire probe into price spreads and mass buying.

"Wickedness will soon tire of attacking a man who cannot be attacked."—Andre Maurois.

"We get out of our troubles only by working harder, not by working less."—Roger W. Babson.

## Mr. Rabbit's Personal Easter Parade

That distinguished Easter figure, the rabbit, has been caught by the camera while busily engaged in gift deliveries and the photograph reveals that not all the new Easter styles are confined to its mode. A preview of Easter gift parcels reveals wide use of colorful transparent wrappings, cellophane and also transparent tape or ribbon in gay bows and loops.

## Canada's New Governor-General

John Buchan, prominent British novelist and writer, and member of Parliament has been appointed next Governor-General of Canada. It was announced recently by Sir George Perley, Acting Prime Minister. He succeeds the Earl of Bessborough, whose term of office expires next Fall. Official publication of the appointment was simultaneous in London and Ottawa.

Member of Bar

Sir George issued the following statement: "His Majesty the King has been graciously pleased to approve the appointment of Mr. John Buchan, Companion of Honor, member of Parliament, as Governor-General of Canada upon the retirement in the Fall of this year of His Excellency, the Earl of Bessborough."

Mr. Buchan has had a distinguished career. Educated in Glasgow University and Brasenose College, Oxford, he was admitted to the English Bar as a member of the Middle Temple. He acted for two years, 1901-3, as private secretary to Lord Milner, then High Commissioner for South Africa. He saw service in the Great War, and in the last two years of the conflict, he was director of information under the Prime Minister. He has been a member of the House of Commons since 1927, representing the Scottish Universities.

"For two years in succession, 1933-34, he was appointed to the King, Lord High Commissioner to the Church of Scotland. Probably Mr. Buchan is best known in Canada as a man of letters. His writings cover a wide range — history of the Great War, biographies of Sir Walter Raleigh, Lord Minto, the Great Montrose and Oliver Cromwell and a

which he became director of information under the prime minister until 1918.

He is a former curator of the Oxford university chest and is a trustee of the National Library of Scotland and of the Pilgrim Trust, and a former president of the Scottish History Society.

Likes Outdoor Sport  
Buchan now lives at Elfield Manor, Oxford. His recreation is fishing, deer-stalking and mountaineering so that if he becomes governor-general he may be expected to be equally at home in the maritimes and the Rockies.

He visited the United States in 1925 and of his return presented the confederate seal to the British Museum. In 1920 he was one of the signers of the Manifesto which warned Great Britain a national financial crisis was coming. The crisis in the fall of 1931 resulted in formation of a National government and abandonment of the gold standard.

"I am extremely proud to have been chosen as His Majesty's representative in Canada and not less proud to be given a chance of serving Canada," Mr. Buchan said after his selection.

Interviewed at his Westminster Club, Mr. Buchan referred to the fact that he had known Canada for many years and stayed with Viscount Blyth of Vimy when the latter was Governor-General a decade ago and had fished in the Maritimes.

"I am looking forward," he said earnestly, to increasing my Canadian friendships and deepening my knowledge of the Dominion.

Romance of Canada  
"As a historian I have always been fascinated by the romance of Canada's history and her wonderful development in recent years and I shall avail myself of a special privilege to see at close quarters her handling of the new problems she has

## Quintuplets and Hauptmann Trial Leading News Stories of Past Year

New York — The birth and daily female lists. Mrs. Dionne was ranked seventh behind Amelia Earhart, Barbara Mdivani and others, but ahead of Greta Garbo, Princess Marina and the wartime mistress of repetition, Gertrude Stein. Eleventh were the Dionne quintuplets — themselves.

After a neck-and-neck race, the lengthy trial which brought the death sentence to the New York carpenter, was given 91 votes and first place. The multi-offspring of Mr. and Mrs. Oliva Dionne drew 87 votes, while the Merro Castle ship fire, which cost 139 lives, was given 83 votes.

In the balloting on the year's greatest news figures, President and Mrs. Roosevelt were given first place at the top of the male and

"I am very certain they will be handled with courage and wisdom."

"I would like to add a personal touch," said Mr. Buchan. "I do not feel that in going to Canada I am really leaving home, since Canada has been so largely made by my countrymen and been so much inspired by Scottish tradition."

"I am looking forward also to seeing much of that wonderful French-Canadian race, who have produced some of the chief pioneers in the world's history. I found in the war that the old Scottish friendship with France is still a living tradition."

## Better Business Trend Displayed

New York — Dun and Bradstreet in its weekly trade review said last week business had entered the second quarter with renewed force.

"Buoyed by the abundance of statistical information that during the first quarter of the year the trend was consistently upward," the survey stated, "current signs of more activity in some of the lagging areas are helping to provide momentum for still better progress during the second quarter, in spite of the numerous complications which will be encountered."

## Normal School Budget This Year is \$38,880

Toronto—Decrease in the expenditure of four of Ontario's eight Normal schools is provided in estimates tabled in the Provincial Legislature last week. The schools affected are: Peterborough, Stratford, Hamilton and North Bay.

In the case of the other four schools, Toronto, Ottawa, London and University of Ottawa Normal school the estimates make provision for more money than was expended during the fiscal year 1933-34.

Stratford suffers greatest in the maintenance reduction the government had decided upon for the fiscal year ending March 31, 1936. Maintenance of the school last year cost \$42,604 but the estimates provide for expenditure of \$38,880.

Peterborough's expenditure must be reduced from \$39,000 last year to \$35,930 in the new fiscal year and North Bay which spent \$37,855 in 1933-34 is allotted \$36,950. Hamilton's expenditure in 1933-34 was \$39,933. For the new year estimates provide \$39,750.

Cost of the Toronto school last year was \$115,959 and estimated

Retailers have been encouraged particularly by the more rapid movement of luxury lines and now are estimating that April volume will rise from 29 to 35 per cent above that recorded for April 1934.

## Barrie Population Increased by 32

During the first three months of the year, Barrie has had a natural increase in population of 32, there having been 57 births and 25 deaths in that period, as compared with 42 births and 27 deaths in the first quarter of 1934 when the natural increase was 15.

The marriage market has not been nearly so active this year as last, however, only thirteen licenses having been issued by Town Clerk A. W. Smith as compared with 25 in the first three months of 1934.

During the month of March, 1935, births numbered eleven, deaths nine and marriages three, as compared with nine births, nine deaths and 8 marriages in the same month of last year.

"The ideas of every important philosophical writer are based on the work of his predecessors."—J. S. Haldane.

## Voice of the Press CANADA

"WE LONG TO TIP HOME."  
Two Stratford lads of seven and eleven, stars went to shoot muskrats and took along the usual 22 rifle. Things went well until in loading the weapon it discharged and the bullet went through the foot of the younger lad.

Then it was that the boy of eleven picked him up and decided to carry him home, and that meant a distance of about a mile and a half. He did not get the smaller lad on his back which would have been easier, but carried him in his arms as one might a child.

How many times he might have had to put his load down in the mile and a half tramp home is not recorded. In view of such a performance and in admiration of such sustained effort one is tempted to forget saying anything about the folly of boys of that age going out hunting with a rifle.—Stratford Beacon-Herald.

NEIGHBORLINESS.  
Neighborhoodness on the farms is apparently something not confined to any nationality, color or creed. It is the outpouring of human good will and sympathy which is often invaluable to those in distress. We may yet see the day when more of this spirit will spread to the cities as well.—Chatham News.

BU! WILL THEY?  
A naturalist asserts that mosquitoes can get along without preying on humans. If he could only convince the mosquitoes!—Kingston Whig-Standard.

GREEN BELT.  
The London county council has set aside the sum of \$10,000,000 to buy up land so as to preserve for all time a green belt around London, so that no matter how big the metropolitan area grows, nobody will be far away from green fields and flowers. This is a commendable spirit, worthy of the greatest city in the world. London is well supplied with parks and open spaces, far more so, for example, than New York, and the transportation system is so extensive, rapid and cheap that it does not take long to get out into the country.—St. Thomas Times-Journal.

LONG TRIP.  
A letter sent from Havana, a small township in Eastern Poland, to Brazil in 1922, has just been returned to starting point. During those twelve years the letter went round the world three times. The sender is dead, but his son, to whom the letter was returned, has been offered some 5,000 zlotys, nearly £200, for the envelope.—Montreal Herald.

THE NORTH FOR TWINS  
If you want to have twins, the best thing to do is to live in a northerly country. This conclusion is reached by the Soviet paper "Segodnya" after an exhaustive study of international birth statistics, which show that climatic conditions apparently form an important factor in the birth of twins. Twins are far more frequent in the North than in the South. In Norway, for example, one out of every 37 births is a case of twins; Sweden comes next with twins once in every 66 births; Germany third with one in every 80. In Brazil and Ceylon twins only occur once in every 200 births.—Sault Ste. Marie Star.

PERMANENT XMAS TREE.  
A thirty-foot Norway pine tree, which will serve as a permanent Christmas tree at Waterloo town hall, was recently moved there and planted. Now there's an idea for you!—Guelph Mercury.

BACK TO THE MIDDLE AGES  
An enterprising British real estate firm, marking a new residential sub-division in Middlesex, has equipped its new estates with built-in dugouts, guaranteed gas-proof and bomb-proof, and is making quite a point of the matter in its advertising.

"Live here and be safe in time of war," is its sales slogan.  
It would be hard to find a grimmer bit of testimony to the insecurity of life in the face of modern warfare. Centuries ago people built their houses without windows so that each home could stand a siege. Today we have advanced immensurably from the disordered conditions which made architecture necessary.

But if we have to equip our homes with bomb-proof dugout, where is the gain? Our boasted civilization has simply gone back to conditions of the middle ages.—Quebec Chronicle-Telegraph.

RABBITS FOR GASOLINE.  
It is reported from Melbourne that the Minister of Customs of the Commonwealth has strongly supported a plan under which Australia

Under the proposal, these millions of frozen rabbits, caught by 100,000 young men throughout the country, would be shipped to Russia for consumption as food, in return for which Russia would send several cargoes of gasoline to the Antipodes.—Brockville Recorder.

## IT'S TRUE!

By Wiley Padan

"IT'S TRUE!" that the Players' Club, celebrated New York theatrical organization, has sent a formal request to May Robson asking her to will the club her scrapbooks, which literally comprise a history of the American theatre from 1893 until today. Miss Robson plays in "Vancesa—Her Love Story", which will soon be at Loew's.

## WEATHER INDICATOR WHY HIS HEAD-ACHES CEASED

Pocket Device Tells What Conditions Are Approaching

In the old-fashioned meteorology, which is still with us in this country, weather is assumed to travel from one region to another. Hence the prediction of a cold or a warm wave that will sweep over New York or Chicago.

But why is there a cold wave at all? Why is one day hot and dry and another cool and rainy? When the Norwegian school of meteorologists, headed by Professor Bjerknes, asked these questions they answered with the polar-front theory. A conflict rages between cold polar air and warm tropical air, they found. Between the two is a "front," a line of demarcation. Sometimes it is the tropical front that advances, and sometimes the polar front. Usually a number of polar fronts travel southward and a number of tropical fronts move northward. One tries to override the other. A modern weather map would show all the fronts.

The object of the Norwegian school of meteorologists, to which most European weather prophets now belong, is to determine the origin, polar or equatorial, of the air masses into which the map can be divided and to estimate the coming weather from their probable behavior at the lines of separation. Sir Napier Shaw, England's great meteorologist, remarks that "the barometer loses its position as a soloist and its place is taken by tropical and polar air, and by their duel the weather of the temperate latitudes of Europe is brought into relation with the general rhythm of the world's weather."

### STUDIES BY SPILHAUS

Young Athelstan F. Spilhaus, who came all the way from Rondenbosch, South Africa, to study at the Massachusetts Institute of Technology, has made it easier to correlate temperatures and humidities of huge masses of moving air and thus considerably simplified weather prediction according to the Norwegian method. His contribution takes the form of a little instrument which he calls an "air mass indicator." It consists of two bits of metal which register the temperature, and a bit of hair which is affected by both temperature and moisture. From the reading the meteorologist must deduce what the weather will be. The instrument is not in itself a prophet.

The meteorologist has various technical names for air masses. He talks of "polar maritime," "tropical continental," "polar continental" and "tropical maritime" fronts. Translated into the language of the street, these impressive technical names become "damp," "dry," "keen," "muggy," "frosty" and the like. As we see, the tongue of the people expresses itself in terms of comfort. Spilhaus's indicator does the same, but more scientifically. It shows the particular type of air mass prevailing in terms of temperature and humidity and therefore of comfort, and thus indicates the conditions on which sound prediction can be based.

### VALUE TO AVIATORS

It is probable that this new instrument will be carried by every long-distance aviator. It is the thing that he dreads most. At present he has no way of foretelling danger. He sees his wings coated with sleet and knows that he must seek a warm stratum of air at once if he is not to risk his life. The air mass indicator gives him warning by telling him that the temperature is falling and the humidity increasing—sure signs of an approaching danger zone. If he is a good meteorologist as well as a good pilot he will know which way to turn in order to escape disaster. Engineers who specialize in air-conditioning will also find Spilhaus's instrument useful. Comfort at low temperature requires high humidity. This evaporation from the body and hence chilliness is avoided. Similarly, high temperatures should be accompanied by dryness. Too engine runs off what the temperature and humidity are and thus knows at once what condition must be changed. To be sure he can arrive at the same conclusion with an ordinary and a wet-bulb thermometer, but it is something to have a single device which can be carried readily from room to room and which can be read like a watch dial.

### WILL KEEP PLANT BUSY FOUR MONTHS

Montreal—An order for 10,000,000 feet of lumber for immediate delivery has been placed with the Donnacona Pulp and Paper Company by the Italian Government. It was learned from officials of the company here recently. The timber is to be used in general Italian home industry. The order is large enough to keep the Donnacona plant in full operation for four months, officials said.

### Wife Put Kruschen in His Coffee

He could not understand why the headaches he had been subject to suddenly ceased. His wife told him, and he at once sat down and wrote the following letter:—

"I am 62 years of age, and ever since I was a boy of ten years, I was subject to very bad headaches. But two years ago the headaches stopped—for what reason I did not know. I was surprised when one day my wife told me I had been using Kruschen Salts in my coffee for over two years. I am still using them, as I know of nothing finer for the system."—J. T. Headaches can nearly always be traced to a disordered stomach, and to the unsuspected retention in the system of stagnating waste material which poisons the blood. Remove these poisons—prevent them forming again—and you'll never have to worry any more. And that is just what Kruschen Salts brings swift and lasting relief from headaches. Kruschen Salts aid Nature to cleanse your body completely of all clogging waste matter.

### Canada England's Best Wool Customer

Canada in 1934 bought more manufactures of wool from Great Britain than was bought by any other country in the world, according to the forty-fifth Annual Review of the Textile, Mercury and Argus, Bradford, just to hand. They say: "Canada was again the largest purchaser with \$2,989,201. Canada's takings in 1933 were \$2,603,193 so that there has been an increase in trade with this market of almost half-a-million pounds. The bulk of the increase in business with Canada was due to the striking rise in shipments of woolen tissues (cloth)."

Canada in 1934 purchased 12.78% of the total exports of woollen and worsted cloth from Great Britain and 40% of the total exports to Empire markets, according to the Spring number of The Bradford Chamber of Commerce Journal.

### WHAT TO DO ABOUT "Acid Indigestion"

A WAY THAT RELIEVES THE CAUSE IN A FEW MINUTES

Many people who think they have "weak stomachs" or "indigestion," doctors say, suffer in reality from nothing more serious than acid stomach. And this common ailment can usually be relieved now, in minutes. All you do is take familiar Phillips' Milk of Magnesia after meals. This acts to almost immediately neutralize the stomach acidity that brings on your trouble. You feel like a new person.

Try this just once. Take either the familiar liquid "PHILLIPS", or the new Phillips' Milk of Magnesia Tablets. But watch out that you get the Genuine PHILLIPS' Milk of Magnesia. Made in Canada.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

**PHILLIPS' Milk of Magnesia**

### The Full Vitamin Value of Cod Liver Oil PLUS Further Body-Building Virtues

Generations have proved the body-building, energy-giving power of pure cod liver oil. Generations, too, have proved that Scott's Emulsion of Cod Liver Oil gives you all these PLUS values of hypophosphites of lime and soda. PLUS values found only in Scott's Emulsion.

**SCOTT'S EMULSION**  
THE COD LIVER OIL WITH THE PLUS VALUE  
For Sale by Your Druggist

This publication gives the following table: Percentage of Total Exports of woolen and worsted tissues taken by Empire Countries.

Canada	1934
South Africa	12.78
India	8.90
Australia	4.53
New Zealand	1.64
Total	31.83

The same English publication also gives "A comparison of Tariffs on Wool Piece Goods" exported to various countries. Twenty-nine countries are listed with having higher rates than Canada, four with rates than Canada, four with rates over 200%, three with rates over 150% and two with rates over 100%, and others—United States 95 per cent., Germany 94 per cent., Italy 77½ per cent., Argentina 69 per cent., and Australia 53½ per cent.; Canada is listed at 40 per cent. This possibly explains why Canada is the best customer in the world for British cloth.

### THE WEEK IN OTTAWA

J. Earl Lawson, K.C., M.P., Dominion Organizer for the Conservative Party has announced the appointment of Mr. Lou Golden, Toronto Barrister, as General Secretary of the Conservative Dominion Organization with headquarters at Ottawa. The appointment takes effect immediately.

Mr. Golden is a graduate of the University of Toronto and Osgoode Hall Law School. He is well known as a former Toronto newspaperman, and as Registrar of the Conservative School operated at Plarling College, Newmarket, Ont., during the summer of 1933. He edited "Canadian Problems," a collected volume of papers read at the Newman School, and widely circulated, especially among the younger Ontario Conservatives.

Hon. Dr. R. J. Manion (Fort William) Minister of Railways and Canals, speaking in the House last Wednesday, made it quite clear that there would be no amalgamation of the Canadian National and Canadian Pacific Railway systems under the Conservative government.

Passage of the Eight Hour Day and Economic Council Bills, coupled with a heated debate on the budget, were among the chief factors contributing to the business of the House during the week. Announcement was also made from the floor of the House by Acting Prime Minister Sir George Perley of the appointment of John Buchanan, author and ex-member of the British House of Commons as Canada's next governor general to succeed the Earl of Bessborough whose term expires in September of this year.

Minister of Labour Wesley Gordon (Temiskaming South) moving third reading of the Eight Hour Day Bill, placed himself in line for a mild attack from Labour and Liberal benches. The old question of jurisdiction was projected into proceedings by Hon. Ernest Lapointe, while A. Heaps, Labour member, expressed dissatisfaction with the measure and contended there should be a six hour day. Promptly the minister informed the Labour member that labour itself desired an eight hour day, whereupon Mr. Heaps sat down. Mr. Lapointe resumed the argument and recalled that a forty hour week had failed of ratification at the last international Labour Conference. He suggested a passage of the measure be delayed to see what next would happen. To that suggestion the Minister of Labour reminded Mr. Lapointe that Mr. Mackenzie King had been to Washington, the capacity of advice when the eight hour day recommendation was adopted. Now,

when it was proposed to implement it, the question of jurisdiction was raised by the Opposition.

Debate on the budget brought Col. J. L. Ralston (York) was leading the affront as the Liberal financial critic. His criticism was summarized as to mean that budget proposals are entirely inadequate for the condition of the country. The Minister of Railways hurried to the defence of the government's proposals, informing Col. Ralston that the budget is entirely one to suit the pocket of titiller, stating it has gone further in the government has yet gone; this country in redistribution of wealth and in placing taxes where they should be placed.

Frank Shaver (Cons., Stuart) came to the defence of the government's tariff policy by telling the House that the textile industry had prospered behind the tariff is to the general betterment of the country.

There is a possibility that Old Age Pensions Act will be up to blind persons between the ages of 40 and 70 years, following recommendation to the House on day of this week by the Industrial International Relations Committee. The resolutions which form the basis of the committee's action was moved by Dr. I. D. Jam (Cons., Renfrew South). Pension would amount to five a week.

### ARE YOU WEAK?

Mr. W. Bow, 10 Wheeler Ave., Ont., said: "I lost weight through poor diet, I had indigestion and headaches. I took Dr. F. J. Scott's Emulsion of Cod Liver Oil and in a few days I was enjoying myself. I am now 150 lbs. and feel like a new man. Write Dr. F. J. Scott, Buffalo, N. Y. for free medical advice."

Issue No. 15—35

An observant Pack of Leamington Ontario Wolf Cubs hiking along Lake Erie discovered what apparently was the first clue to the disappearance of an American Army plane and its cadet flyer in March. On the shore the Cubs found and identified a piece of airplane fabric, and instead of throwing it away or keeping it they handed it over to the police, who sent it to Selridge Field.

Competing with orators of five other High Schools in the finals of the annual Western Ontario Secondary Schools Junior Boys' Oratorical Contest, Scout Kenneth McKenzie of the Windsor-Walkerville Vocational School was awarded first place and the Pardee Shield, and the gold medal donated by the Sarnia Board of Education. Scout McKenzie spoke on "The Boy Scout Movement."

The State Legislature of Nevada has passed a bill raising the marriage license fee from \$2.00 to \$3.00—the extra \$1.00 to go into the Boy Scout Fund of the state.

A community effort of Boy Scouts which developed considerably during the past winter was the staging of ice carnivals. One of the last reported was an excellently planned affair of the 1st Stirling Troop, Ont. It attracted a crowd of 700 persons to the local arena to witness fancy and comedy skating, races for boys and girls and skating in costume. A generous list of prizes was awarded.

Canada will be represented at the 25th birthday Jamboree of the Boy Scouts of America, at Washington, August 21-30, by at least one composite Scout troop. The boys will go direct from the various provinces. The expected 30,000 Scouts attending will be reviewed by President Roosevelt.

It is expected that a small party of Canadian Rover Scouts from different parts of the Dominion will attend the 2nd World Rover Meet, to open near Copenhagen, July 29th.

Dominion Headquarters of the Scouts of Canada will celebrate the King's Silver Jubilee, on the evening of May 6th, by lighting a chain of beacons from the Atlantic to the Pacific. Scout troops and district organizations are discussing and reporting plans for this display of loyalty. Wherever possible the lighting of the beacons will be preceded by a royal salute of 21 rockets. In the Old Country a similar chain of beacons will extend from John o' Groats to Land's End.

A supper to their parents was the celebration adopted by the Lone Scouts of Alliston, Ontario, to mark the official expansion of their Lone Patrol to a full-fledged Scout Troop. Guests included His Worship Mayor F. M. Walker.

Rovers of the 23rd Winnipeg Crew arguing against the 4th Winnipeg Crew, won the negative side of a debate, "Resolved that the study involved for a university degree is of value to the young man entering commercial life."

Boy Scouts are never allowed to forget that they are an international brotherhood. With the great Australian Scout Jamboree "australang-syne" into history, they are now talking of jamborees planned for this summer in Denmark, Poland and the United States, and a world Rover Meet in Sweden.

The Board of Control of Toronto have approved a recommendation of the City Clerk for an expenditure of \$200 for a civic reception to Lord and Lady Baden-Powell during their coming visit to that city.

The Canadian Pacific Male Choir of Calgary offered to stage concerts for Scout troops, to assist boys of needy families to purchase uniforms, in preparation for the coming visit of Lord and Lady Baden-Powell.

### 700 Miles of Canada Highway Unfinished

#### Considerable Work Still To Be Done In Ontario

Ottawa.—About 700 miles of the Trans-Canada Highway remain to be built, according to a return tabled recently in the House of Commons. The gaps in the route exist in Ontario and British Columbia.

The highway, says the return, is a series of roads which in the main link up completed sections. One 15 from Schreiber easterly to White River, a distance of approximately 125 miles. This is all new work and is estimated to cost \$25,000 a mile.

From White River easterly to North Bay alternative routes have been suggested. On one, from Schreiber to North Bay the province estimates a total cost of \$10,000,000. Surveys on the other have not yet been completed, and the approximate mileage and cost have not been ascertained.

In British Columbia a gap exists between the junction of the Canoe and Columbia Rivers and Goldstream for 25 miles, and from the Canoe River southward 16 miles. The average cost per mile of this portion is estimated at \$24,000 by contract, while the cost of bridging the Canoe River is given as \$45,000.

Short sections of the road have been built from Revelstoke to Goldstream, a distance of 60 miles. It is

### END PAIN—Soothe SORE HANDS by Rubbing in

The aviation instructor having delivered a lecture on parachute work, concluded: "And if it doesn't open—well, gentlemen, that's what is known as 'jumping to a conclusion.'"

### GROW SOYA BEANS—A NEW DEAL

We guarantee that your bean crop will bring you at least the equivalent of the standard price for wheat next fall, and will contract for your crop acreage. For particulars write:

**Soya Mills Limited**  
ROOM 306 45 RICHMOND W. TORONTO

estimated that approximately \$15,000 a mile would be required to complete it over the whole length.

### Feed Plants For Early Growth

Early Spring Nourishment Provides Incentive For Quick Development

In the early spring the grass and other perennial plants awaken hungry from their long winter nap. What a voracious appetite they possess!

Unfortunately they are seldom satisfied as but few soils contain sufficient of the different elements of plant food to satisfy all the needs of the plant. We seldom fail to feed our dogs, birds and other pets, but too often overlook the fact that plants must be fed.

Proper feeding of plants is one of the most important phases of gardening. We can exercise but little control over the sunshine and moisture required for plants, but we can furnish the right nourishment. There is nothing that you can do in gardening from which you get a louder "thank you" from your plants, than that of giving them a complete, balanced plantfood.

This hearty response is expressed by a thick green carpet of grass; flowers that bloom in profusion; delicious early vegetables; in fact, healthy, vigorous plants of all kinds. If you have never given your hungry plants a real meal, do it this year and get a new thrill in gardening.

Prepared complete plants foods are obtainable everywhere that are easy and convenient to use. Many garden lovers have found in plantfood the key to full success in gardening.

### Business Records For 1935 Beat Those Of 1934

The Dominion Bureau of Statistics states that the marked gain in productive operations was the chief feature of the Canadian economic situation in February. As the high points of 1934 were exceeded the level of February after seasonal adjustments, was more satisfactory than in any month since March, 1931. Following the marked gain in January, the further betterment in the month under review, contributed an excellent showing for the elapsed portion of the present year. The gain in productive enterprise is the most tangible evidence of the continuance of the recovery. The index of the physical volume of business based on 45 factors adjusted for seasonal tendencies was 100.6 in February against 97.5 in the preceding month. —Toronto Mail & Empire.

### NO PEP?

When you feel like a log and your muscles tire easily, it's more than likely that wastes that shouldn't be in your body are sending out poisons into your blood. At times like these, take a bubbling, bracing glass of Andrew Liver Salt each day till the trouble clears up. Then take an occasional glass—once or twice each week—and you'll stay perfectly fit. Get Andrews now. Small tin, 35c; Large tin, 60c; Extra large bottle, 75c. Proprietors, Scott & Turner, Ltd., Newcastle-upon-Tyne, Eng. 4

ST. CATHARINES UNDERTAKING  
CANNOT BE CARRIED OUT  
ON CASH RELIEF PLAN

St. Catharines' proposal to erect an addition to the City Hall, renovate the police station and build a comfort station does not lend itself to the provisions of the Ontario government's cash relief plan, according to a letter received by City Clerk H. H. Smith from Hon. David A. Croll, Minister of Public Welfare.

In the proposal the City Council had planned to use skilled labor on relief to a large degree, but the Minister reports that this class is not sufficient for the rotation plan. A check has shown 783 skilled workmen in the city on relief. The city had also planned to utilize borderline skilled labor assisting these men, who have thus far kept off relief, in the solution of their problems.

The rejection of the present plan by Hon. Mr. Croll will be discussed at a joint meeting of the finance works and special building committees this evening.

SODIUM LAMPS  
FOR HIGHWAYS

Use of sodium lamps for highway illumination, similar to those now under test on the Niagara Falls highway near Fruitland, was the one way in which it could be hoped to combat the problem of highway accidents, Samuel G. Hibben, lighting director of the Westinghouse Lamp company, New York city, told members of the Hamilton section, Engineering Institute of Canada, and the Toronto section, American Institute of Electrical Engineers, last night in the auditorium of the Canadian Westinghouse company limited.

Contending that colour lighting to suit individual requirements would mark the future trend of electrical illumination on highways and in factories, office buildings and homes, Mr. Hibben ventured the prediction that with the use of vapour, or "cosmetic" lamps, women would be able to change their make-up merely by the flip of a switch. The possibilities of such lighting, however, were somewhat in the future, he added.

## Local Items of Interest

The High and Public Schools of Grimsby will re-open on Monday following the Easter holidays.

It is anticipated that a meeting of the Water Commission will be held on Thursday evening.

The regular monthly business meeting of the Lincoln Loyalist Chapter I.O.E., will be held in the club rooms on Monday, April 29th at 3 o'clock.

There has been no damage to orchards reported by fruit farmers in the district by the recent heavy frosts due to the fact that the buds are not far enough advanced.

Rev. R. Moynan, B.A., New Westminster Church, Hamilton, will officiate at the services in St. John's Presbyterian Church on Sunday while Rev. Mr. Kaine of the local congregation will preach in the Hamilton Church.

Unusually large congregations were in attendance at the Easter services held in the various churches of the town on Sunday, when the ministers spoke on Easter themes and special music was rendered by the choirs.

Easter Sunday saw a heavy motor traffic on the highway although few accidents were reported and they of a minor nature. Many highway booths and gas stations which had been closed during the winter months were open and report a good weekend in meals and gas sales.

Last week a transient minister spent a night in the local police cells. According to his story he had but 35 cents to his name and so spent the night in the cells. A 75-year-old lady was also noted hitch-hiking and walking along the highway from Toronto to Crystal Beach. She apparently was expecting to secure employment at Crystal Beach.

The A. Y. P. A. of St. Andrew's Church hospitably entertained the members of the Grimsby Beach Young People's Society on Monday evening when an excellent musical program was provided by members of both organizations. Refreshments were afterwards served and a very pleasant evening was enjoyed. Nearly four score young people were in attendance, over thirty being present from the Beach society.

MR. FOOT was friendly with Bumpy Bunton and Burny Callus until Cross Corn and Bunton Salves were sold by Dymond's Drug Store.

SCHOOL DAYS  
(By H.G.M.)

(Continued from Page 1)

from mere girls who seemed to fly everywhere—and look at the sewing and fancy work and look at those teachers presiding over the tea. What a pity some one else did not do it for them that they might meet the mothers and dads, too. But doubtless they were not missed in the congratulations that went to each teacher from grateful parents.

The exhibition of work by the children in every grade stood as a testimonial to the ability of the teachers, and pointed out in no uncertain terms to the fact that Grimsby has a first class group of Public school teachers who seem to be grounded in the principle of starting the children off on the right foot, of moulding their thoughts early in life and of giving their very best for the coming generation. There is a wonderful work for as they teach them so will they be and what they be will be the people who will keep Canada to the forefront of the nations of the world.

And now, my readers, if you were not in the long line of visitors to the public school last Wednesday, consider that you missed a rare treat and an opportunity to see what young Grimsby is doing along Educational lines. Right now ask someone who was there and join in thanking Principal Griffith and his staff of teachers for a wonderful exhibition of public school children's endeavours.

### OBITUARY

Mrs. J. E. Chadwick

Friends here were shocked to learn of the passing of Mrs. John E. Chadwick, 35 Evans Avenue, Toronto, formerly Eria Mae Dorsey of Grimsby, at her home in that city on Tuesday, following a short illness from pneumonia.

Born in Grimsby in October 1900 the late Mrs. Chadwick was in her 34th year. She had lived here all her lifetime until about ten years ago when, after her marriage to Mr. Chadwick, they took up residence in Toronto.

Left to mourn her untimely passing besides her husband, are one daughter, Betty Mae, aged 8 years and one sister, Mrs. R. F. Hitchman, Robinson Street North, Grimsby.

Following a short service at Wm. Speer's Chapel in Toronto the remains will be conveyed to the Stonehouse Funeral Home for service at 3:30 on Thursday afternoon. Interment will be made in Queen's Lawn Cemetery.

Samuel McMurray

Samuel McMurray, of Binbrook, passed away at the General Hospital on Thursday evening, April 18th, after a long illness, in his 79th year. He was a life-long resident of Binbrook, where he had farmed successfully for many years. He leaves one son, Otto, two grandchildren, one brother, John, of Hamilton, and two sisters, Mrs. Bella Harper and Mrs. Minnie Walsh, both of Hamilton. The funeral took place on Sunday afternoon at 1 o'clock from S. Cotterell's funeral home to Binbrook cemetery.

(Continued from Page 1)  
press his sincerest gratitude to my fellow-citizens for their messages of sympathy and good-will.

"I leave for London to represent Canada at the Silver Jubilee celebrations. This is an occasion where we shall join with all citizens of this great Empire in loyal devotion to the Crown and in thanksgiving to God that Their Majesties have been spared to serve their people through a quarter of a century that has probably witnessed more far-reaching changes than any comparable period in history.

"Through difficult years, Canada has done well. But there are mighty tasks before us which will test the capacity of the Canadian people to put service of country before private or selfish ends.

"I expect to return to Canada in good health, to join with my colleagues in completing the legislation which was undertaken at the commencement of this session. I am grateful to the Almighty that I have been able, through these difficult years, to render some service to my country, and so long as I am spared in health and vigor it will be my proud privilege to continue to do so."

### APRIL SESSION COUNTY COUNCIL

(Continued from page 1)

**Roads**  
That the report of the Road Superintendent be adopted as read.

That Constable Tufford submit a report to this Council each month.

That the Communication from the County of Elgin be filed.

**Finance**  
That the Hospital accounts be paid on the O.K. of the Chairman.

That the resolution from the County of Elgin re services rendered by Teachers at Entrance Examinations be endorsed.

That the resolution from the County of Elgin regarding exemption of Farm lands in Police Villages be not endorsed.

That the resolution from the County of Elgin regarding Surrogate Court Offices be endorsed.

That the resolution from the County of Elgin regarding Provincial and Dominion Taxation be filed and no action be taken.

That the resolution from the County of Elgin regarding Hydro Rates be not entertained.

That Elgin County be notified as to the action taken on the various resolutions received.

That the matter of Winnifred Milborrow be referred to the County Solicitor.

That the account of Rose Keman for maintenance at the St. Catharines General Hospital amounting to \$146.65 be paid and handed over to the County Solicitor for collection.

That the Auditor's Report for the year 1934 be received and adopted, and printed in the Minutes, also that the Auditor's account amounting to \$468.00 be paid.

**Printing and Building**  
That a new Typewriter be purchased for the Court Clerk's office.

That the Committee take up the matter of the Typewriter for the Crown Attorney's office with the Remington Representative in this district with the view of getting the machine at present in use put in proper condition at no cost to the County.

### BRAY CHICKS repeating 1934's SUCCESSES

IF "somebody" forgot to put the lid on your brooder stove on the evening of a cold day in January, and next morning you found ice in the water fountain — what would you expect to happen to your flock of week-old chicks?

John Dew, King, Ont. had that experience with his early-hatched Bray White 1-borns this year, and he only lost four — and only one has died! He has nearly all his others sold, and out of 303 chicks has raised 170 fine pullets — even a flock as you could wish to see. They weigh just about 1 even 2½ lbs. per bird — at 11 weeks old!

Another "early bird" who bought early hatched chicks this year was Britt Riddell, neighbor of Mr. Dew's. He bought 307 Bray Barred Rocks hatched January 9th and has only 3 chicks. His broilers, all sold, and he has raised 154 splendid pullets for his laying flock. Actually, their growth and development have been so rapid and complete, that 13½ weeks old, they weigh as much as 3 lbs. 10 oz. apiece!

Chicks that LIVE and GROW like these will LAY and EAT. They will make good body weight at 5 months old and will have the body capacity and stamina to begin laying early and keep on laying when they are worth the most money it pays to buy Bray's chicks.

Come in and talk chick-ith us. Or get a copy of our free chick booklet and come in when you have a few more moments at home.

## What have I done!

### SUPPOSE THIS HAD BEEN YOUR CHILD!

THE number of children killed and injured by automobiles in Ontario is appalling!

Children by nature are carefree. You must think for them, and for other pedestrians, constantly. Be sure your brakes, tires and lights are effective. Drive slowly and be particularly careful wherever there may be children . . . especially on holidays and week-ends. Train yourself so that safe driving becomes second nature to you

If you don't, some day you may find yourself not only severely penalized but also minus a driver's license . . . for life!

### IT IS BETTER TO BE SAFE... THAN SORRY

**MOTOR VEHICLES BRANCH**  
ONTARIO DEPARTMENT OF HIGHWAYS

### THIS MUST STOP!

In Ontario, during 1934, there were nearly 10,000 automobile accidents.

**512 people were killed**

**8,990 people were injured**

... a considerable increase over 1933. It must be evident to all thinking people that this must stop.

Hon. T. B. McQuesten, Minister of Highways

Dr. A. L. McCrimmon, Professor of Christian Education, Theology and Sociology. He was last at the university Friday and was to have lectured again this morning.

His birthplace was Delhi, Ontario. On three occasions, Dr. McCrimmon was elected president of the Baptist convention of Ontario and Quebec and had held many other high offices in the church, including that of president of the Baptist World Alliance.

Dr. McCrimmon was seized with a heart attack shortly after midnight and succumbed about 2:30 a.m. He celebrated his 70th birthday last March 6.

By  
**PEARL BELLAIRS**

Her helpless rage and exasperation blazed in her eyes.

In precisely the same way that medicine is still undergoing research and new findings are made from time to time, in some cases revolutionising the profession so as it with the practise of graphology.

Since the introduction of vaccine, smallpox has decreased with great rapidity where its use has been at all general.

"What would you like for your birthday, Tommy?"

"Oh, a telephone, Dada. Then I can answer teacher's questions without going to school."

When the Hungarian chemist Szent Gyorgi discovered that the sweet red pepper that grows so abundantly in his native land is a rich source of vitamin C—the one that prevents scurvy—the food manufacturers saw their opportunity. His Budapest correspondent informs the American Chemical Society that paprika has made its appearance—a jam made from the juice of ripened peppers (paprika). It gladdens the eye with its rich red color. Children cry for it because it is sweet yet not so sharp as the raw vegetable. Housewives mix it with foods. The doctors bless the proceeding since the chemists have found that this paprika jam contains twice as much vitamin C as lemon juice.

This is not the place to describe in technical detail the air-conditioning apparatus designed by the President of Poland for his own use. It is original in many ways, but any correctly designed air-conditioning equipment will do. What deserves special attention is the physicist-President's method of giving himself the benefit of an artificial sun's ultra-violet rays.

### FINDING THE RIGHT GLASS

The original quartz lamp bothered the President at his work. The light and the ionizing effect were all that could be desired. There was too much ozone. He made inquiries. He found a glass which will let the ultra-violet rays pass and which will prevent the generation of ozone. His problem was solved.

The President has no illusions about the artificiality of his invention. "It is impossible to reproduce in a city the beauty of Alpine nature," he sighs, "and by the same token nothing can take its place in its effect on a man's soul or on the joy of life."

Still, it is something to sit in the Presidential palace in Warsaw and breathe clean, irradiated air and conduct affairs of State with a clear head.

### Bogus Fifty Cent Piece

We were shown a counterfeit Canadian fifty cent piece. It was such a good copy of the original that it would deceive anyone not on guard. In size, appearance, color, there was nothing to show that it was other than what it seemed.

The unaccustomed ear could hardly detect the difference when it was allowed to fall upon the table, but the difference in sound was readily detectable when compared with the sound made by the real fifty cent piece — the sound coming from the real piece was not

The piece shown us came from Montreal, where it is said a number of these bogus coins have been circulated.—Halifax Chronicle.

LESSON NO. 49

**Flowing Rhythmic Pattern**  
Figs. 167 and 178 illustrate motifs suitable for all over patterns, these are very simple, effective and practical.

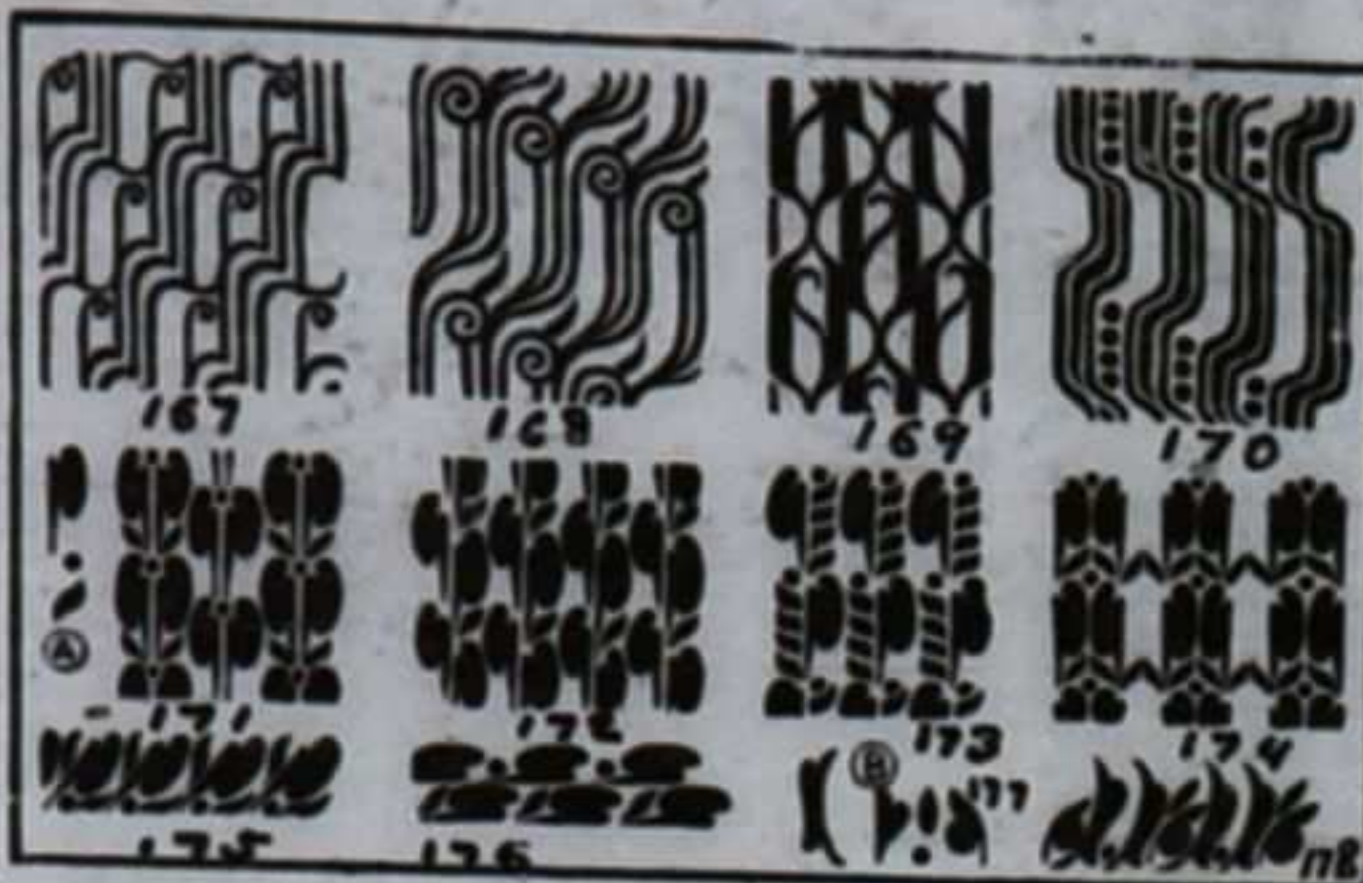

In the last lesson we referred to Dominance of Display and Individuality. You can apply this same theory to your pattern designs. Unless your effort has the strength to command attention among your competitors' designs, you cannot get full appreciation for the value of your own work.

Now do not misunderstand. There are many variations of this theory. You might be selling beautiful rugs; or some product where "atmosphere" and suggestions to please the senses, were quite as important as the

of 5 x 7 inches. Do not attempt to be too elaborate, but aim at the flowing character in your design, however simple it may be.

EX. NO. 57

Make a few abstract shapes, something like A and B in Figures 171 and 177. Take a piece of tracing paper, lay it over the shapes you make, and try different arrangements and combinations of them, arranging them within 1/4 inch squares. When you have some satisfactory groupings repeat them regularly both in borders and over a surface, making Rhythmic patterns of them. Make the surface patterns to cover not less than 5 x 7. Remember that you must arrange the shapes so that their different curves and lines harmonize.

EX. NO. 58

merchandising hookup, but this can be done in a way to assist, rather than detract from the Dominance of Design.

In short, no matter what your product or what your advertising mediums are, you must consider more than merely your product and your personal preferences. You must consider advertising competition of all kinds, that might appear competitively, if you are looking for the other fellow—this fellow is not looking for you—the prospective buyer. Correct recognition of this element helps to make the difference between super results and just satisfactory results.

EX. NO. 59

On paper ruled in 1/4 inch squares make some Rhythmic arrangements of flowing pattern over a surface. Use straight lines, dots, small curves and scrolls, somewhat on the lines of figures 167-170. See that the lines of your design are flowing and connected in movement. Make three different arrangements. Choose one of them and cover with it a surface

Look for some illustrations or designs that are good examples of Flowing Rhythm. Study them well and mark on them, in dotted lines, with red ink, the general flowing together of the lines and forms. Give at least three examples. Trim close and mount them neatly. If small, arrange them on one sheet, lettering a neat title below them. If too large to put together on a sheet 8 1/2 x 11, mount them separately. Then make a cover for them by doubling a sheet the size of the sheet you mount them on. Letter a neat title on a small piece of note paper and attach it where it will look well, on the outside of the cover sheet.

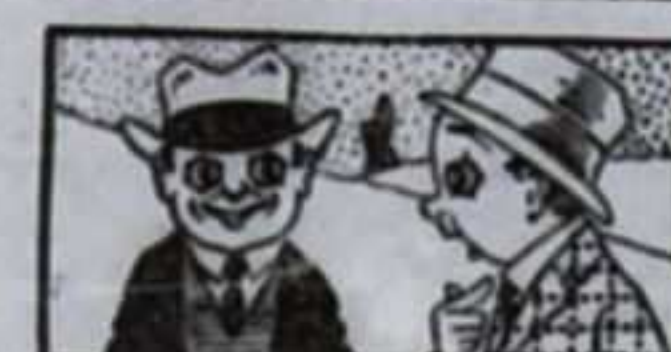

"Questions will be answered in this department. Anyone wishing to receive a personal reply may have same if a 3c stamped, addressed envelope is enclosed with the request. The Art Director, Our Sketch Club, 73 Adelaide Street West, Toronto."

Squirrel: So you don't like the elevated.  
Mole: No indeed, the subway for mine.

**A WELCOME HARBINGER**  
The sounds of Spring are in the air,  
The feathered songsters singing.  
Make glad some music everywhere,  
And joyous bells are ringing.

There's beauty in the sky above,  
But what is sweeter than  
The bell that tells the advent of  
The penny ice-cream man?

"Do you think this suit is too loud?"  
"If I had a suit like that I should be tempted to apply the gag rule."

"Why is it we never have hash any more?"  
"Because we never have anything left over from which hash can be made."

## Rideau Hall's Next Occupants

John Buchanan, member of the British House of Commons for the Scottish Universities, who has just been appointed Governor-General of Canada to succeed Earl Bessborough, is seen here with Mrs. Buchanan as they arrived in New York last fall when Mr. Buchanan spoke at Columbia University and was given an honorary degree. They have four children.

## It's Not An Error

This is the way this picture should be, according to the cameraman, who caught Alf Moystad turning a somersault on a while practicing for Olympic skiing finals and National Championships in Paradise Valley.

## LAURA WHEELER FINDS THE CROCHETED JACKET USEFUL AND SMART

CROCHETED JACKET PATTERN 941

With crochot such an outstanding feature of our styles today, it is little wonder that the well-dressed woman has adopted the string crocheted jacket. Can't you see on how many occasions through Spring and Summer it will be just the thing to wear? You can do it in a dark color to go with your Spring dresses—in a light color for those pastel ones for Summer and for the dainty ones for evening wear. The design is a plain and open 'tripe'—the stitches are very simple. The collar can be turned down to form lapels if you like. Of course, the raglan sleeve is just the thin, this season.

Pattern 941 comes to you with detailed directions for making the jacket shown; illustrations of it and of all stitches used; material requirements.

Send 20 cents in stamps or coins (coins preferred) for this pattern to Needlecraft Department, Wilson Publishing Co., 73 Adelaide St., West, Toronto.

## Goering's Fiancee Plays Her Best Role

Emmi Sonnemann, fiancee of General Hermann Goering, Prussian Premier, and one of Germany's foremost actresses, pictured reading letters of congratulation on her engagement in her dressing room in a Berlin theatre.

## British Royal Couple At Nassau Reception

## Leaving For Europe Trouble Scene

The sick and weary 55-year-old "mystery man" of Europe, Sir Basil Zaharoff, financier and munitions salesman, left Monte Carlo for an "unknown destination." He left on the Riviera Express, which travels the direction of Paris. Closely guarded, he is one of the hardest men in the world to photograph. A photo shows him leaving the Hotel de Paris in Monte Carlo. At the extreme left is Sir Basil's secretary. His valet is opening the door of the car and a detective stands beside the hotel employs a "look-out" for photographers.

## NATIONAL HEALTH

(Editorial from Toronto Star Weekly, January 11, 1935.)

In the official magazine of the Canadian Social Hygiene Council there are pronouncements upon the national aspects of health by representatives of the various governments. And there is general agreement among them that this should be made a subject of discussion at the next Dominion-Provincial conference in order that the Dominion may assume its proper responsibility. Even Premier Taschereau of Quebec who is guarded in his approval of the surrender of health control to the Dominion, agrees that, with provincial autonomy properly safeguarded, co-operation between federal and provincial authorities is well worth discussing. Hon. John Bracken, premier of Manitoba, declares such a discussion "very desirable."

Hon. G. M. Weir, the Provincial Secretary of British Columbia, asserts that "health is the very cornerstone of national well-being, and hence a matter of national responsibility." Hon. George Hoadley, Alberta's Minister of Health, writes that "all must realize the need of concerted action in dealing with some of the great problems common to us all." Saskatchewan's Minister, Hon. J. M. Ulrich, points out that the Dominion is actually doing less than it did some years ago: "In 1920 the Dominion established grants payable to each province, conditional upon the institution by the province of a program for venereal disease control, but this assistance has now been discontinued. In my opinion consideration should be given to the re-establishment of this grant."

An interesting contribution to the discussion is made by Hon. Dr. J. A. Faulkner, Minister of Health for Ontario. "Health," he contends, "is not an individual matter; it is not even a community matter; it is more than a national matter; it is international, because in these days of modern transportation and rapid communication, the health of any one area is to a very large extent dependent upon health conditions generally throughout the civilized world. For this reason the promotion of health must be regarded as a national activity, to be shared in by all the nations embraced in our modern civilization, each country taking its own part and making its own contribution in the general interests of all."

Dr. Faulkner argues that "no matter what concessions may be made with respect to the legal interpretation of the British North America Act, modern world conditions compel the acceptance of health as a national interest." If an agreement is reached at the next Dominion-Provincial conference, "we might anticipate that adequate provision would be made for national leadership in all health movements of a national character; for research in public health practice and administrative procedure; for the setting up of standards as a practice, procedure and the training of personnel; for the unification and correlation of health laws and regulations which have both a local and general application; and for central control in all matters of health which have a national aspect."

Certainly the Dominion should do more for health than it is doing now; should take an increasing interest and accept an increasing responsibility in this matter, where of late the tendency has been somewhat in the opposite direction.

## Eyebrow Plucking May Be Smart But It's Dangerous

Boston — The feminine art of plucking the eyebrows may be smart but it's dangerous, Dr. Paul Gifford, president of the Vermont Optometric Association, warned before the convention of the New England Council of Optometrists.

"Normal brows shade the eyes from glaring sun and serve to catch particles of perspiration which otherwise would reach the eye itself," Dr. Gifford said. Optometrists, he said, agreed women with normal brows generally have better eyes than those who clip their brows.

"Mother sends you a thousand kisses and wants a hundred in return."  
"A hundred kisses?"  
"Don't be absurd, father! A hundred dollars, of course!"

## The Week's News of The Surrounding District

## BEAMSVILLE

The Cantata "The Crucifixion" was given in Knox United Church on Sunday while in the Baptist Church a dramatic service was held.

There was a good turnout of the local scout contingent last week for the first of the season's hikes.

With the interior decorating and placing of the new equipment only remaining to be done, the newly remodelled store of Hermiston's, on King street, is nearing completion. The new store with its model front is one of the biggest additions in years on the street.

The winners of the draw staged by the Boy Scouts are: 1st, Charles Shafer, fifteen gallons of gasoline; 2nd, R. Hatter, ten gallons gasoline. The prizes were donated by Stan's Garage, Beamsville Garage, Richardson's Garage, Seymour's Garage and McColl Frontenac Garage.

John Heiler, Smithville, has bought the property of J. Hannigan, King street.

Harry Boughner, well-known district fur buyer, has had tough luck the past few years keeping his skins safe over night from thieves. For the third time he was robbed of \$150 worth of furs last week. A window in his barn was pried open and the bunch of skins brought home that was taken from his car.

The high and vocational school classes of 1935 planted an oak tree and two blue spruce trees on the school campus last Thursday afternoon.

Miss Helen Comfort, Reg. N., has been appointed to an important position on the staff of the San at St. Catharines.

A huge quantity of rock slid down the face of the cliff in the rear of the home of D. H. Booth, living in the southwest section of the township last week and if a few thousand more tons that appears to be in a loosened condition takes a notion to slip a dangerous situation may result.

The proprietors of Cherry Blossom Lodge were served with papers on Saturday afternoon when provincial police notified them that their case would be heard on Thursday. A charge of operating the establishment without license came as a result of a raid a few weeks ago.

Keith DeRose, six-year-old son of Rev. A. DeRose, sent reporters scurrying for cameras on Saturday by solemnly announcing that Shirley Temple, child screen star, was visiting him. "Assuring the press all the way home that his statement was authentic, he quailed before, his father and was forced to admit that the actress was only haunting his mind. He had sent several letters to her, he said, and declared that it had been "love at first sight".

## WINONA

Hydro employees have been taking a census of power users in the district. Besides checking what electrical equipment each household uses, as was done some three years ago, they are also asking a number of more personal questions, such as how old the man of the house is, how many children in the family; if there is a mortgage on the property, and how much. In the majority of cases the questions were answered.

St. John's A.Y.P.A. held a service last week in the church when Reginald Towne, past Dominion president of the A.Y.P.A. was the speaker.

Workmen are still busy at the corner of Station road clearing the shrubs and trees from around St. John's church. The corner is now entirely clear and will be a great help to motorists. The church grounds are to be improved by low shrubs.

The Women's association of Fifty church met at the home of Mrs. Van Duzer last week for the monthly meeting. Mrs. Watson, first vice-president, presided. After regular business was dealt with Miss Viola Smith sang several beautiful solos.

## GRASSIE

Mrs. Fred Black accompanied by her father, Mr. M. S. Merritt motored to Toronto on Saturday to attend the funeral of Mr. Sam Thompson, who died last Thursday, after a brief illness.

Mrs. Wheeler and family of North-east Ontario are visiting with her parents, Mr. and Mrs. Joe Duck.

Mrs. Minnie Merritt and grandson, Frances Barlow of Hamilton are visiting at E. Walker's.

Mr. and Mrs. James Lampman and Mr. D. Ward of Smithville spent Sunday evening with Mr. and Mrs. F. Black.

## STONEY CREEK

At 1.45 a.m. on Sunday, a car driven by Duncan D. MacDonald, Fruitland, while travelling east on No. 8 highway, was struck by a car allegedly driven by J. Copeman, of Bartonville. Copeman left the scene before police could arrive, but had given his name to Mr. MacDonald, who claimed the other car had shot across the highway directly into his vehicle and had then swerved back into the guard rail on the opposite side. Beyond a shaking up neither Mr. nor Mrs. MacDonald was injured.

Two motorcycle riders, Frederick W. Wilcox, 2 Inwood avenue, and Edward Elliot, 153 Pleasant avenue, St. Catharines sustained nasty injuries when their machines crashed into a car driven by Roy H. Carter, 244 Homewood avenue, Hamilton, which was going in the same direction and made a left turn in front of them to go into a service station on No. 8 highway. Wilcox was thrown to the ground immediately his motorcycle hit the car, but Elliot's motorcycle swerved off and then crashed into a rockery.

Evidence that cattle prices are still on the upgrade was seen in the sale of a fine lot of steers last week-end by a farmer near here for seven cents a pound, live weight. This is the highest price received for cattle for a number of years.

A first-aid class is being conducted every Thursday night by the firemen at the fire hall under the direction of Dr. M. S. Heddle. Nearly all the firemen are taking the course.

There is a decided demand for farms and houses to rent in the district, more so than there has been for a number of years, many families from the city being anxious to get back on the land again.

Beekkeepers throughout the district report their bees having wintered exceptionally well, with only small losses. The only disquieting feature of the beekeeping business at the present time is the low price of honey, a weakened demand for this product being the cause of it.

## SMITHVILLE

There passed away on Tuesday, April 16th, at the residence of her son, Charles Grant, Queen street, Toronto, Mary Ellen Black, wife of Ephraim Broughton. The funeral took place from her residence, Caiste.

## FORMER RESIDENT VISITS GRIMSBY

(Continued from page 1)

cars of same commodities of United States Fruit and Vegetables. Instead of our Government permit for importation when that time arrives and establishing an embargo they still permit the cars to come forward filling the sidings with everything under the name of Fruit and Vegetables with the result our farmers and fruit growers' mortgages are still piling up, as they are never able to make a dollar. They are being gradually driven off the farms, the banks begin to squeeze and there is no health for us. I wonder how many more years the farmers are going to endure such headaches, heartaches, disappointments and hardship all and for no other reason in God's world only that our members sent to Parliament are incapable of managing the affairs of our country. I often feel like putting on my long coat and tip top hat and going down to Ottawa and raising H—For years my heart has cried out for the fruit grower and farmer and I often wonder how many more years has the farmer to be killed, murdered and deprived of an honest living, who is the foundation and back bone of our country."

Centre, Friday, at 2 p.m. Interment was made in the Presbyterian cemetery, Abingdon.

When a chicken brooder in the upper story became overheated, the house of Frank Rennie was threatened by fire last week. Damage was confined to a large hole in the floor. Neighbours assisted in fighting the flames.

Victor Tufford, who is building a barn to replace the one lost by fire last November, had a quantity of his lumber stolen.

James Chase received a bad wound in his forehead when an axe he was using flew off the handle and struck him. Dr. Prior dressed the wound.

Neighbours and friends of the Eden United church held a social evening at the home of Mr. and Mrs. G. C. Gregg last week. A programme was given with local talent. Rev. C. A. Day presiding.

James L. Lampman was called to Toronto Wednesday owing to the sudden death of his brother-in-law, Samuel Thompson.

Last week a pleasant surprise was given Mrs. A. Gove on her 80th birthday at the home of her grandchildren, Alfred and Annetta Farr, when the family prepared a bountiful supper. Several neighbours and friends called on Mrs. Gove and extended congratulations and joined with the family in wishing her many more years of health and happiness.

When you've just had word Ted has won that scholarship . . . and you're pleased as punch . . . and so is his mother . . .

Don't just take it out in smiling. Tell him he's a chip off the old block . . . via Long Distance.

● Long Distance is ready under any circumstances. It's easy to use, and cost is small. For as little as 30 cents you can talk 100 miles or so. See the rates in the front pages of your directory.

## MANAGER BANKS OF LOCAL COMPANY ADDRESSES GAME ASSN. ON "FISHING TACKLE"

"Fishing tackle" was the subject of discussion at the monthly meeting of the St. Catharines and Lincoln County Games and Fish Protective Association, in Moose Hall, on Thursday evening. Mr. Harry Banks, manager of the Horrocks-Ibbotson Tackle Co., Grimsby, gave the address, bringing with him different types of rods, reels, lines and baits and describing their purpose and how to use them. To those anglers who anticipate purchasing new tackle this year this gave them splendid information as to the proper tackle to buy for the special type of fishing they enjoy. The Canadian National Railways sent a motion picture machine and five of their latest pictures which have never been shown in St. Catharines before.

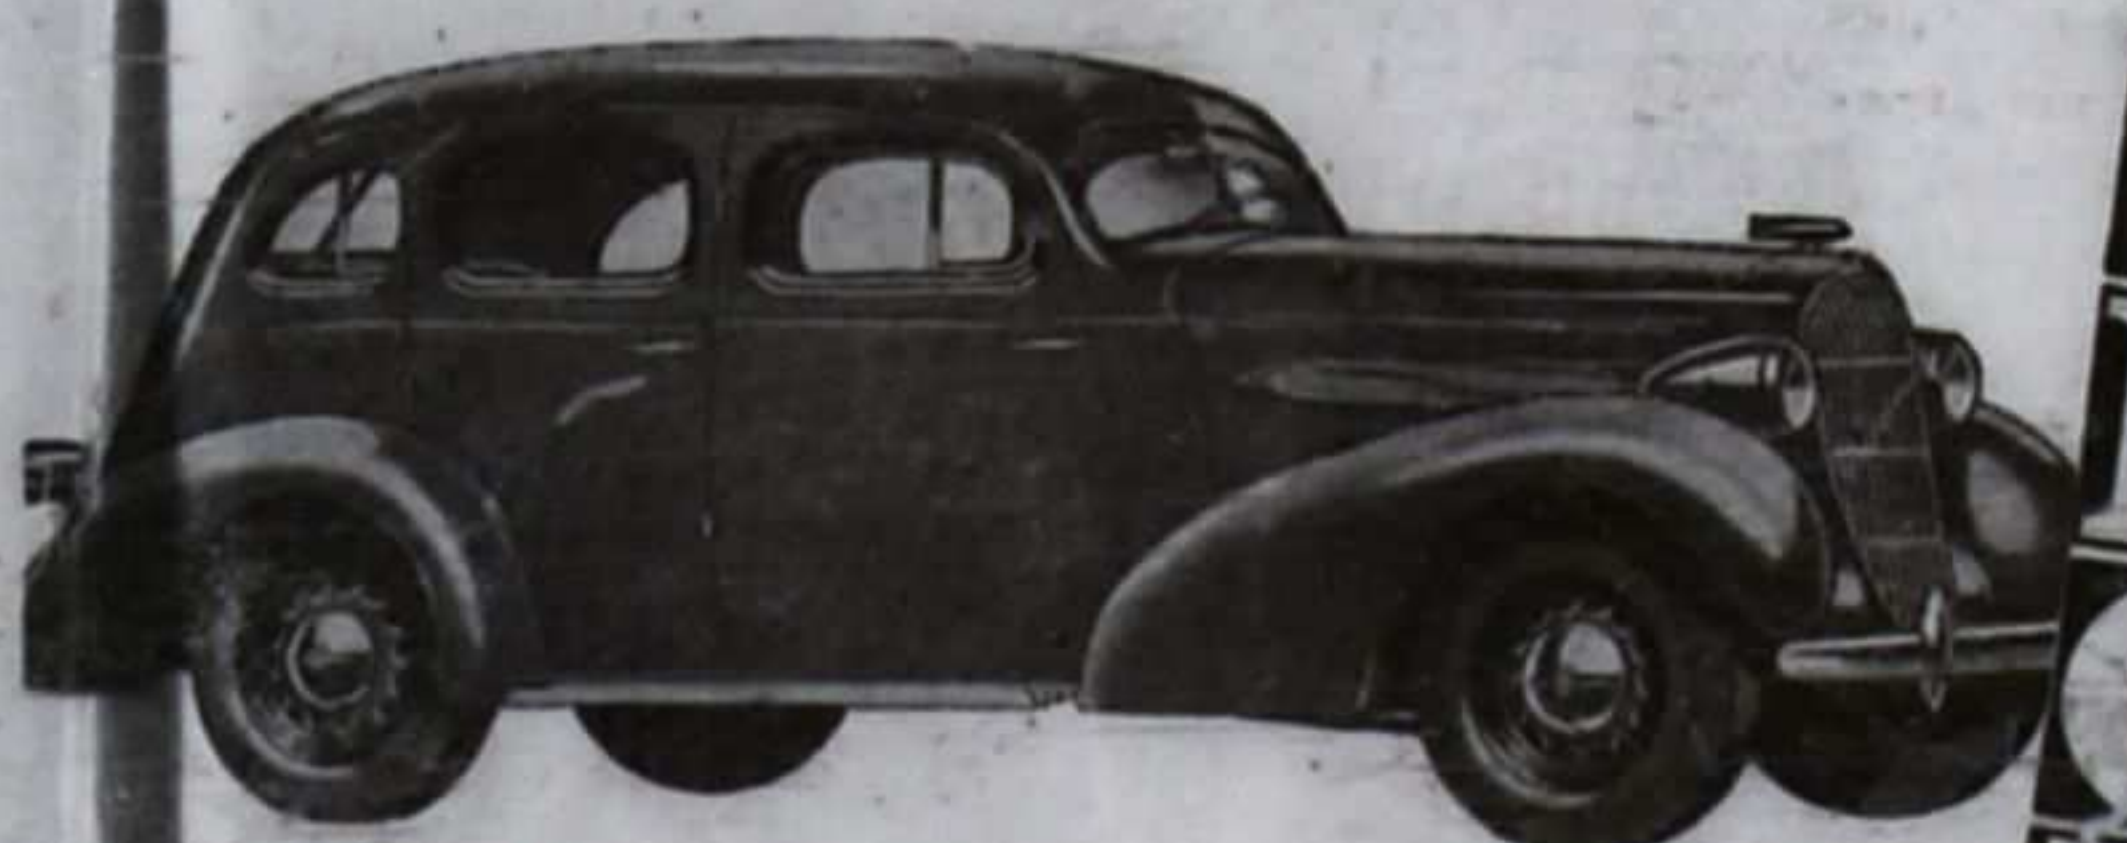

## BANK BARN BURNED

Fears of a fire-bug at large have again been raised in the farming district by the destruction of a bank barn on the farm of Mrs. Tina Lynuk, No. 20 Highway, Tuesday night.

Mrs. Lynuk, a widow, whose husband died last June, was seriously ill in bed when the alarm was raised by a motorist. Despite her illness she rushed to the barn and assisted in releasing calves and pigs.

Two men had to use force to prevent her entering the barn a third time when it would have meant almost certain death in the flames. Neighbors and motorists formed a bucket brigade and saved the residence and a large drive shed, after both had been set alight by sparks. It is reported a car was seen leaving the scene a few minutes before the fire was discovered.

## Upholding Oldsmobile's Reputation as "The Car that has Everything"

Whether you look at it from the viewpoint of the complete, balanced, beautiful car, or examine its features in detail, you will find Oldsmobile "The Car that has Everything."
